

Introduction to Database Systems (CS3700)

Tutorial-1

Topic: Entity-Relationship(ER) Model

Date: 21st-Aug-20

[The ER diagram given below is taken from the book “Fundamentals of Database Systems” by Elmasri and Navathe]

Recall the modeling concepts of the Entity-Relationship (ER) data model and write out clearly what are all the domain requirements that are represented by the ER diagram of the Airline Reservation System given below:

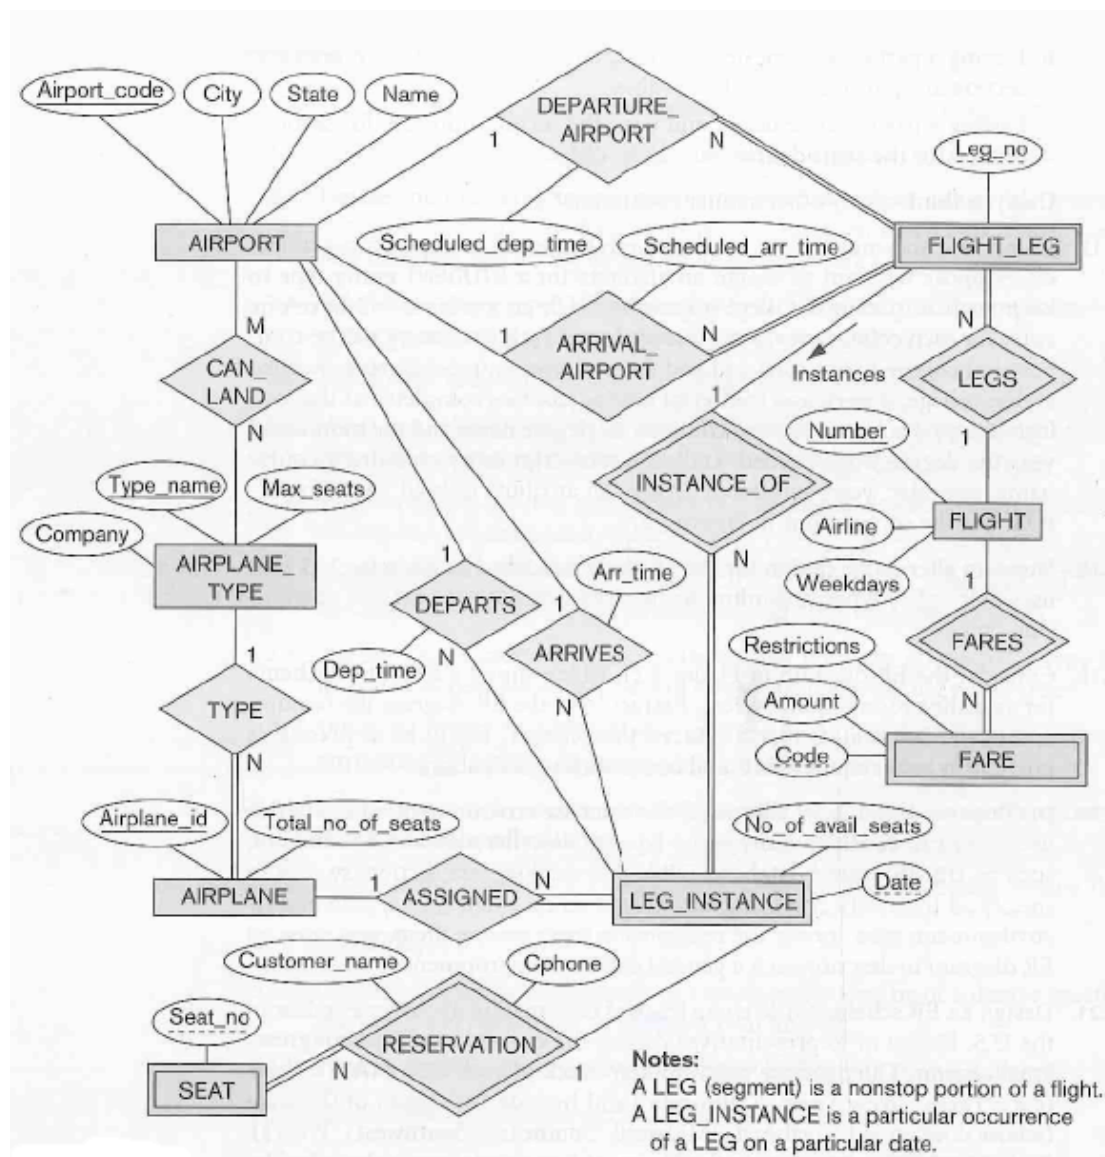

Fig: ER diagram of Airline Reservation System
